*A tasty artistic experience!*

LONDON - BERLIN - MILAN - ROME - MADRID - BARCELONA  
VIENNA - NEW-YORK - **PARIS** - MONTE-CARLO - GENEVA

The first edition of the international festival *Night-Fall Paris* will take place from June 26 to July 7, 2022 in 12 Parisian galleries and 12 high-end restaurants. To discover, 12 „dish-works“, mirroring the works exhibited in each restaurant. An opportunity for all audiences to encounter both contemporary art and gastronomy in the same place, at the same time. A unique artistic and culinary journey.

## The pairing of 1 restaurant, 1 gallery, 1 chef, 1 artist...

*„The international art & gastronomy festival Night-Fall is more than a concept, it is an artistic experience of correspondence between the senses, sensitivities and languages that open the simultaneous paths of emotions“,* explains Thomas Hug, founder of the artgenève, artmonte-carlo fairs and Geneva Biennale Sculpture Garden, which initiated Night-Fall.

When artgenève looks at the origin of taste, the art fair goes to the table. Pulling the thread towards other possibilities, it weaves the link between art and gastronomy into a tight knot. The walls fall down, the borders are abolished to better redefine themselves in time and space. The imposed contraction of the ephemeral, the staging of the plate, the content and the container, the play of materials and products, placing gastronomy in a different perspective. At the heart of this artistic contemporaneity, the virtuoso chef becomes a visual artist, and in this other world of art, those of the table have their own existence: a capsule collection of designer plates, works of art as well as utensils.

**To create a table of crossed arts on other territories:** an idea born in 2020. artgenève inaugurates the first Night-Fall Geneva, ephemeral extension of its contemporary art fairs, dedicated to creativity in all its senses. After two years of successful culinary art experiences, the contemporary art fair aims to expand artgenève/Night-Fall internationally, thus continuing the gastronomic dimension started in its fairs. In collaboration with our partners, we wish to develop a unique sensory experience in resonance with events related to the arts.

**artgenève/Night-Fall** multiplies to let the artists imagination.
